**GROUP 3600**

Please substitute the claim set in the appendix entitled Clean Version of Pending Claims for the previously pending claim set. The substitute claim set is intended to reflect amendment of previously pending claims 23, 25, and 28-34 as they stand after the filing of the Preliminary Amendment with a Certificate of Mailing date of April 9, 2002. The specific amendments to individual claims are detailed in the following marked up set of claims.

1. A method, comprising:  
receiving Space Based Augmentation System (SBAS) correction messages from a selected SBAS satellite;  
determining whether at least one criterion is satisfied for using the selected SBAS satellite as a correction source; and  
upon determining that the at least one criterion is not satisfied for using the selected SBAS satellite as a correction source, selecting a second SBAS satellite to be used as a correction source from which to receive SBAS correction messages.
2. The method of claim 1, wherein determining whether at least one criterion is satisfied for using the selected SBAS satellite as a correction source includes determining whether the selected SBAS satellite is sending SBAS correction messages.
3. The method of claim 1, wherein determining whether at least one criterion is satisfied for using the selected SBAS satellite as a correction source includes determining whether the SBAS correction messages received from the selected SBAS satellite are reliable.
